Aircraft Parking

Aircraft parking and staging will be in front of the Travis Aero Club hangar. Aircraft must be parked in the tie down area with the aircraft nose facing towards the Aero Club hangar. This will prevent any dirt and debris from being blown into the hangar during engine start and taxi out.

Facilities

The Travis Aero Club Clubhouse, restrooms, and pilots lounge are located in the airport terminal. Spot Landing Competition and BBQ will be located at the Travis Aero Club Hangar.

RULES AND REGULATIONS

- Since this is taking place at an uncontrolled airfield, each participant in the spot landing competition will be given a participant number to distinguish themselves during the competition. Each participant will state their number on final when they make their position radio call in the flight pattern.
- Each participant must make their landings after the chalk line laid out across the runway. Any landings made before the chalk line will be a 400 foot penalty.
- Each participant will get three landing attempts. The first attempt will be a practice landing. The last two landings are the ones that count.
- Each landing that counts will be measured from the chalk line to where the aircraft landing gear is firmly on the ground. It will not count from where the aircraft first touched down if it starts to bounce.
- There will be no set times to take off or set amount of people in the flight pattern. As soon as one participant comes back with an aircraft, the next participant will depart.
- Student pilots participating must either fly with a CFI or be signed off for solo flight at Rio Vista Municipal Airport (O88).
